*HE. Ambassador Marco della Seta,
Embassy of Italy in Hanoi*

“

Dear members of the Italian Chamber of Commerce in Vietnam, Italian and Vietnamese friends,

Last August, I began my mission as the new Italian Ambassador to Vietnam. A few weeks after starting my service in Hanoi, I wish to express to all of you my pleasure for this new professional commitment which brings me back to Asia, a continent of paramount importance. Asia has been the focus of a major part of my career as an Italian diplomat, as I served in the past as deputy head of mission in China and as Ambassador to the Republic of Korea.

In a framework of the increasingly close relations between our countries, on an institutional, economic and cultural level, 2023 represents a year of special importance. Indeed, it marks the fiftieth anniversary of diplomatic relations between Italy and Vietnam and the tenth anniversary of the signing of the Strategic Partnership between our two countries.

Welcome message from HE. Ambassador Marco della Seta

The bilateral relationship is constantly advancing in solidity, depth and effectiveness, supported by a network of intense economic and cultural ties and institutional connections. In such a special year, we exchanged several high-level visits, culminating in the state visit carried out in Italy by Vietnamese President Vo Van Thuong, which reciprocates the one carried out in 2015 in Vietnam by President Mattarella.

2023 also celebrates the fifteen years of operation of ICHAM. The Italian institutions in Vietnam have always had a relationship, a close and intense collaboration with the Chamber, due to the importance we attach to its action. ICHAM actually plays a fundamental role not only in promoting trade and access to such dynamic markets but also contributes to intensifying people's relationships.

The trade figures between Italy and Vietnam reached an all-time record in 2022, highlighting how the cooperation of institutions, business associations and stakeholders is profitable and effective when we act as a whole team. By continuing to collaborate with commitment, I am confident that, despite the challenges that lay in front of us, we will be able to achieve even more ambitious goals and new important successes.

I wish the Italian Chamber of Commerce in Vietnam all the best.

SEITERRE MISSION to Hanoi and HCMC

On July 12th, the Italian Chamber of Commerce in Vietnam (ICHAM) along with Seiterre - a major Italian wine production company - organized a Seiterre wine promotion event. In this mission to Vietnam, Mr. Carlo Alberto, the representative from the winery, hopes to introduce the company's variety of wine and meet prospective distributors in Vietnam through a mini Masterclass, and B2B meetings in Hanoi and HCMC.

The Masterclass was hosted successfully with the participation of more than 20 sommeliers and representatives from different wine distributors from Vietnam. Mr. Alberto introduced six different wines, including various red, rosé and white wines, from two signature Seiterre lines - the Traditional and Orizzonti. Following a brief networking lunch, Mr. Alberto met and discussed with representatives from most prominent wine distributors and visited several famous wine showrooms around Hanoi.

Then, Mr. Alberto, along with ICHAM Executive Director Mr. Tran Thanh Quyet continued his mission to Ho Chi Minh city, where he conducted multiple B2B meetings. In addition to introducing Seiterre to significant wine

distributors, the representative also discussed promising import potential to the Vietnamese market.

About Seiterre: Born in 1877 from the passion dedicated by Rizzi family to the cultivation of grape and the production of wine in their farm in Trentino area (North of Italy), Seiterre today, with the fifth generation, means a large company present with its own production on 350 hectares in six different Regions in Italy: Trentino, Veneto, Friuli, Lombardia, Piemonte, Toscana. That's the meaning of the name "Seiterre": 6 territories, 6 different geographical areas, climates, terrains, and different grape varieties that make the most famous Italian wines worldwide.

Stay Export Project 2023

“Stay Export” is project born from the collaboration of Unioncamere (Italian Union of Chambers of Commerce, Industry, Handicrafts and Agriculture) and Assocamerestero (Association of Italian Chamber of Commerce Abroad), with the aim to support Italian SMEs in their internationalization process, by providing information, guidance and assistance. The Italian Chamber of Commerce in Vietnam (ICHAM) has been assigned to conduct the project in Vietnam.

The project is divided in two parts: online mentoring for Italian companies and the participation in drafting an in-depth survey on Made in Italy issues. The duration of the project is 7 months, from May to November 2023.

In the first part of the project, ICHAM conducted mentoring sessions for two Italian firms, one operating in the fruit and vegetable field, the other in the lighting industry. The companies were provided useful information about the Vietnamese market, the current situation and the macro trends in the sector, operational aspects related to export, the level of commercial barriers and business strategies. At the end

A mentoring session for Italian companies

of the mentoring, the companies were sent information materials, market research and some names of Vietnamese operators with whom they could possibly start looking for cooperation opportunities.

The second part of the project involves participating in the drafting of a survey about the Made in Italy brand, aimed at understanding the commercial value attributed to Made in Italy abroad, specifically in Vietnam. The collected surveys will be processed and summarized with the objectives of sizing the Made in Italy sector, quantifying the incremental value generated by the brand, understanding and delving into the drivers that explain the value and distinctive elements of Made in Italy abroad, analyzing any sector-specific characteristics, identifying investment opportunities, and developing strategic guidelines for Made in Italy businesses. The work includes administering a survey to a sample of companies operating in one of the following sectors of greater relevance for Made in Italy:

- agri-food (production and/or distribution) - the most relevant sector for Made in Italy in Vietnam.
- furniture and home systems (furniture and home accessories, bathroom, office, public spaces, commercial spaces, outdoor, appliances, lighting appliances).
- fashion sector (clothing, yarns, fabrics, lingerie and swimwear, footwear, leather goods and tanning, jewelry, eyewear, cosmetics, and sporting goods).
- automotive (vehicle production and components).
